## IPPC-ISPM-15 Information Sheet

**Regulated Commodities :** All non-manufactured wood packaging and loose wood dunnage constructed from coniferous (softwood) and non-coniferous (hardwood) wood or combinations to be exported from Canada to countries having implemented the import requirements of ISPM #. 15

**Commodities Exempt :** Wood packaging or loose wood dunnage produced wholly (100%) from manufactured wood ( Plywood or Chip Board) are not subject to the requirements of this policy.

**Approved Treatment Options :** Presently, heat treatment and/or methyl bromide fumigation have been accepted internationally as approved measures under IPPC ISPM # 15 and by the CFIA as approved measures .Wood packaging subjected to approved measures by a facility approved by the CFIA or its approved Verification Body and displaying a wood packaging certification mark as specified should be accepted by all NPPOs as the basis for authorizing entry.

**Wood Packaging Certification Stamp :** Once a facility has been certified by the CFIA or its approved Verification Body under the CWPCP, a unique facility certification number will be assigned to the facility by the CFIA. This number will become part of their wood packaging certification mark .The wood packaging certification mark may be stamped, labelled or branded to the wood packaging. Tags are not permitted. The wood packaging certification mark is non-transferable and ultimately provides traceability to the producer and the location where the treatment occurred. One facility certification number will be issued to each facility location.

**Recycled Wood Packaging:** All wood packaging that bears the official wood packaging certification mark from Canada or another country and has been constructed under the specifications of IPPC- ISPM # 15, may be re-exported from Canada. It is the obligation of the Canadian exporter to ensure that recycled wood packaging meets the import requirements of IPPC - ISPM # 15 and the foreign destination.

**Repair and Re-manufacture of Previously Certified Wood Packaging:** All recycled wood packaging intended for export must be re-certified under an approved program after repair or reconstruction. The final wood packaging product must be re-marked by the approved wood packaging producer or by the approved treatment facility. All other wood packaging certification marks must be obliterated or removed.

**Wood Packaging Certification Mark :** The marks shown below shall certify that the wood packaging and loose wood dunnage material or articles which bears these marks have been subjected to approved measures as described in the CFIA Policy directive D-01-05, The Canadian Wood Packaging Certification Program (CWPCP).

**The mark must include:** IPPC certification symbol , the two letter ISO country code, **CA** for Canada A specific certification number issued by the CFIA to a facility upon certification. The treatment

abbreviation: **HT** is the code for heat treatment **MB** is the code for methyl bromide fumigation **D** is the designation for dunnage; D- HT or D- MB.

The Wood Packaging Certification Mark may only be applied by wood packaging producers or treatment facilities approved by the CFIA and operating under the CWPCP. The mark must be: legible ,permanent and not transferable, placed in a visible location and on at least 2 opposite sides of the article being certified The mark should be black in color.

**Members of the Canadian & National Wood Pallet and Container Associations**  
ISO 9001-2000 registered and CFIA- IPPC-ISPM-15 certified.
